WM. PRINCE & SON'S

PERIODICAL CATALOGUE

OF

MULBERRIES, &c.

Genuine Morus Multicaulis, or true Phillipine Island Mulberry, producing the largest leaves. The Trees of this fine variety reared by us, have become hardened and acclimated by culture, in a high and exposed location: the wood is very mature and perfect, and the joints very close, thence affording one-third, and often one half more buds for propagation, than those grown far to the south. As the root of this species will throw up numerous shoots, each root is counted in the measurement of the tree, at 10 to 12 cents. In many places it is counted as 15 to 25 cents, or as 6 to 12 inches measurement.

	Dolls.	Cts.
Trimmed Trees, averaging 1½ feet in height above the root, each	—	25
Do. do. 2 do. do. "	—	33
Do. do. 2½ do. do. "	—	42

Cuttings, ... per bud	—	1½
Seed, ... per oz.	3	—
Alpine, or Macrophylla, of the genuine kind, with very large leaves. This is a very hardy and valuable variety, and is the same so called at Northampton.		
Trees, 1 to 2 feet in height, . . each	—	20
Do. 2 to 3 do. . . . "	—	25
Do. 3 to 4 do. . . . "	—	30
Do. 4 to 5 do. . . . "	—	
Cuttings, ... per bud	—	1½

	Dolls.	Cts.
Canton, or Nankin, rather tender, but well suited to southern latitudes.		
Trees, 1 to 2½ feet in height, . . each	—	20
Do. 2 to 3 do. . . . "	—	30
Do. 3 to 4 do. . . . "	—	35
Cuttings, ... per bud	—	1½
Seed, ... per oz.	5	—
Morus elata, very hardy and large leaved, . each	—	50
Rose of Lombardy, or Rose leaved of Italy, hardy, each	—	25 to 35
Roman, large leaved and hardy, . . "	—	30 to 40
Pyramidalis, hardy, ... "	—	25 to 35
Oriental, imported recently into France, from Asia, each	—	50
Lily leaved, or Feuille de Lys, . . . "		
White Italian, Trees, 1 to 2 feet, . . "	—	4
Do. do. 3 to 4 do. . . "	—	8
Do. do. 4 to 6 do. . . "	—	10
Do. Seed, ... per lb.	5	—
Do. do. . . . . per oz.	—	75

The Florence, Asiatic, Morretti, Smyrna, and Chinese Multicaulis Seedling Mulberries, are synonymous with one or another of the kinds enumerated above.—The variety often sold, as the Multicaulis Seedling, has no connection or affinity to the genuine Multicaulis.

N. B. In assorting the preceding kinds of Mulberries, where different sizes are named, the trees will be so selected as to make a fair average between the two sizes named under each head.

Silk Worms' Eggs, Imperial White, one of the best kinds, per oz.				20	—
Do.	do.	Imperial Yellow,	do. do. "	20	—
Do.	do.	Two-crop White,	. "	20	—
Do.	do,	Sulphur, 4 weeks,	. "	20	—
Do.	do.	Mammoth White,	. "		
Do.	do.	Pea-nut,	. . "		

TERMS, &c.

The Spring being now at hand, the trees, cuttings, &c., can be forwarded at any moment. Sales for immediate delivery will be made for cash, or satisfactory notes, payable at a bank in some city, and 25 per cent. of the purchase money must be sent with the order, and the balance settled by cash or note at or before the time of delivery. Where it is desired that the trees be delivered in April, 25 per cent. must be sent in cash, by a draft or bank certificate of deposit, with the order; and a note, for the balance of 75 per cent., payable at such period in April or May, as may be fixed upon for their delivery; and immediately on receiving such remittance, we will forward to the purchaser a contract binding ourselves to deliver the trees to his order. We do not in any case hold ourselves bound to any prices we may name, until we actually receive the first payment, as prices will, without doubt, continue to advance every week, especially just before the planting time commences, until they attain to the same rates they did last Spring, which was 35 cents per foot for trimmed trees.

All Trees, Cuttings, &c., will be packed in the very best manner in boxes or matted bundles, so that they will keep perfectly safe for months during any voyage or travel, and they will be delivered to any person in New-York, or sent by any Transportation Line, or shipped to any port designated, and the bill of lading or receipt will be forwarded in any way the purchaser may direct.

Catalogues of the immense collection of Fruit and Ornamental Trees and Plants, Green-House Plants, Bulbous Flower Roots, Double Dahlias, Garden and Agricultural Seeds, &c., will be forwarded to every applicant. It is desired that letters may be post paid.

☞ Printed directions for the planting, management and propagation of the trees and cuttings, will be sent to every purchaser; in which will be comprised the very best and most profitable course of culture, &c.

The trees and cuttings may be safely planted till the first of June; but it is preferable, in the middle states, to plant them by the first week in May.
